Update on New Accounting System:

Discussion Summary: We have kicked off the transition to the new accounting system and are in the process of transferring information over. This is going to involve a lot of extra work by staff, to create the new information that is required, and learn a whole new system while maintaining the current books. We are excited to have the budget actually be inside the new system, as well as budgets for each of the grants. This will simplify tracking and reporting.

Budget Review:
